**CURRENT PRICE LIST
FOR EARLY ORDERS**

**Victory Garden
Benefits to Be
Made Permanent**

National Victory Garden Advisory Committee recommends a permanent government home garden campaign because Victory Gardens:

Advanced the health, well being and economy of millions of American families.

Combated poor food habits and lessened malnutrition.

Established better employer-employee relationships.

These wartime gains should be retained in peace.

A GOOD NAME WELL KNOWN

For 39 years has signified the best in seeds.

Grow Well Because They Are Well Grown

To insure prompt attention address the firm, not individuals.

Prices are effective January, 1946. Due to weather conditions and also lack of labor in many seed producing sections, there will be a shortage of many varieties of seed this spring. We advise early ordering and when possible give second or third choice in case your first choice is sold out. All prices are quoted subject to being sold out and market change. **Write for special prices on large quantities.** We recommend early ordering. If no agent at your station, add sufficient to prepay freight or express. If you remit too much, surplus will be promptly refunded. If requested by parcel post, your Postmaster will tell you in what zone from Mitchell you are located so that you may include correct postage with your remittance.

Should prices have changed when your order is received, if lower, we will refund balance, if higher, we will either reduce your order to the amount remitted, or ship C.O.D. for the balance, as you prefer.

Current Prices, January, 1946, F.O.B., Mitchell, South Dakota

See your local dealer for If he cannot supply you, write us.

The Dakota Improved Seed Company gives no warranty, express or implied, as to the productiveness of any seeds or bulbs it sells and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seed.

DISCO SEEDS CAN BE OBTAINED FROM YOUR LOCAL DEALER

Our country needs paper and we are curtailing our catalog for that reason. Although we may have deleted a few varieties of vegetable and flower seeds, we have included the most popular and useful. We are glad to say that our stocks are good in regard to germination and purity. Some varieties are very scarce and exceptionally hard to get. Those who order early can expect to get the best selection.

Selected Field Seeds

All our field seeds are selected with the greatest care, grown in districts where our long experience has proved to us produce the best. Thoroughly re-cleaned and tested for germination and purity. Free from all noxious weeds.

All field seeds and seed corn are quoted F.O.B. Mitchell subject to market change. Bags free except on Seed Grain and Soy Beans as noted.

OUR BRANDS

DISCO BRAND. Seed to qualify for this brand must represent the cream of the crop, free from noxious weeds and of exceptionally high purity and germination.

EMERALD BRAND. Good quality seed fully equal to much of the so-called number one seed.

ALFALFA SEED CROP

Although there is not an abundance of alfalfa seed it is a little more plentiful than last year and the quality is also better. In fact, some of our stocks are as fine as any we ever had. Anyone planning on seeding an acreage of Alfalfa this year will do well to contact us. We shall be pleased to mail identical samples, quoting our best prices, not only on our Disco or Emerald Brands but on some other lots, we have.

DISCO ALFALFA

All our regular Brands of Alfalfas are shipped out in sealed bags, and origins supported by U. S. Verified Origin Certificate. Look for this seal and certificate which insures genuineness. All our Alfalfas are hardy, northern grown.

REGISTERED ALFALFA State Sealed and Certified

GRIMM—This seed is sealed and tagged by the Inspectors of the South Dakota Crop Improvement Assn.

100 lbs.

Blue Tag\$58.90

GRIMM—Grower's Declaration—Our stocks of this well known variety have been grown under the most exacting conditions, both in regard to drouth and climate. Sow 10 to 15 lbs. per acre. 100 lbs.

Emerald or Standard.....\$50.90

Disco or Premium.....51.90

COSSACK—Grower's Declaration—The dry years experienced in the northwest have demonstrated the unusual drought resistant qualities of Cossack Alfalfa. Sow 10 to 15 lbs. per acre. 100 lbs.

DISCO CLOVERS

TALL SWEET CLOVER—This is by far the most popular biennial variety. It stores up a tremendous quantity of reserve food in its deep tap root. Sow 12 to 15 lbs. per acre. 100 lbs.
Emerald\$18.00
Disco18.50

YELLOW DWARF—This variety is also a biennial, growing a crop the first year; flowers, bears seed and dies at the end of the second year. Stems are finer. Sow 12 to 15 lbs. per acre. 100 lbs.
Emerald\$18.00
Disco18.50

HUBAM—Annual white. Where it is considered desirable to have the crop make its growth, flower, form seed and die in one year, Hubam has advantages. Sow 10 to 12 lbs. per acre. 100 lbs.
Disco, per 100 lbs.....\$22.00

ALSIKE or SWEDISH CLOVER—Produces the finest quality of clover hay; unusually hardy, and well adapted for pasture. Thrives best on low lands. Sow 5 to 6 lbs. per acre. 100 lbs.
Disco, per 100 lbs.....\$43.85

MEDIUM RED CLOVER—Insist on domestic grown seed. Sow 8 to 12 lbs. per acre. 100 lbs.
Disco, per 100 lbs.....\$45.00

DISCO GRASS SEED

BROME GRASS—Grows to an average height of 30 inches. The leaf growth very abundant. Can endure extreme cold. Sow 20 to 25 lbs. per acre early in spring or late in fall. 100 lbs.

Canadian Certified
No. 1\$18.50
Canadian No. 1.....18.00
Domestic18.00

Brome Grass

SLENDER WHEAT GRASS (Agropyrum tenerum). Originally known as Western Rye Grass. The name Slender Wheat Grass has doubtless been applied to it because of the resemblance which the long, slender, smooth heads bear to those of wheat. It is the only grass among the hundreds growing wild on the prairies of the West or Northwest which up to the present time has been found of sufficient value to give it a place among the cultivated grasses.

Slender Wheat Grass is a perennial. Properly speaking, it is a bunch grass closely allied to Crested Wheat Grass in this respect. It is the famous bunch grass of the bunch grass ranges of the Great Plains Region. When growing on the ranges the height is from 12 to 18 inches, but under cultivation it grows to the average height of about 3 feet.

The roots are fibrous and abundant, the long tendrils pushing far downward into the soil. It is the root system of growth that gives the plant the marked ability which it possesses of withstanding drought.

Slender Wheat is one of the hardiest of grasses. None of the cultivated grasses excels it for growing under dry land conditions. Under very dry conditions it will give better yields than Brome Grass.

Suggested rate of seeding: 15 to 20 pounds per acre. 100 lbs.
Disco, per 100 lbs.....\$11.50

CRESTED WHEAT GRASS—Sow Crested Wheat Grass just as soon as you can get on the land in the spring. If fall seeding is more desirable, sow in September or October or just before freeze up. Never sow Crested Grass deeper than one-half inch. About 15 to 20 pounds per acre is the required amount when seeded with a grain drill which in our opinion is the best method for seeding. 100 lbs.
Fairway Strain, Canadian.....\$14.50
Standard Strain, Domestic.....14.50

WESTERN WHEAT GRASS—A grass native to the Great Plains region where it will give good results with a small amount of moisture. Very hardy, makes excellent pasture, and hay is relished by stock. Sow 15 to 20 lbs. per acre. 100 lbs.
Disco, per 100 lbs.....Ask for Prices

RED TOP, Solid Seed—Grows most luxuriantly on moist, rich soils; very robust; produces strong, thick roots and makes a firm sod; very desirable for pasture purposes. Sow 6 to 8 pounds of solid seed per acre. 100 lbs.
Disco\$20.00

REED CANARY GRASS—A hardy perennial grass suitable for hay or pasture. Boggy or marshy land can be transformed from a liability into an asset by seeding with this Canary Grass. Should be broadcast 5 to 6 pounds per acre, drilled to 3 pounds per acre in 16 to 18 inch rows. 100 lbs.
Disco\$55.00

TIMOTHY—Almost too well known to necessitate any description. A hardy perennial, having strong resistance to both cold and drought. Sow 10 to 15 pounds per acre. 100 lbs.
Disco\$10.00

DOMESTIC RYE GRASS—Well adapted for quick pastures, meadows and lawns. Can be closely cropped. Will give best results on moderately rich soil. Should be sown at the rate of 25 to 35 pounds per acre. 100 lbs.
Disco\$14.00

Sorghums for Fodder

Don't plant any forage crop seed before the soil is thoroughly warmed up.

SUDAN GRASS—Don't plant Sudan grass too early. It will not withstand frost. Leave seeding until after corn planting. Sudan is the ideal catch crop for hay. Broadcast 20 to 25 pounds. Drilled, 8 to 12 pounds per acre.

Finest Southern Grown. Per 100 lbs.....\$10.00

SORGHUM, Disco Sweet—This is a true variety of sorghum cane for fodder or syrup. It has everything a good sorghum cane should have. Palatability, high sugar content, heavy yielding and under ordinary growing conditions will be matured long before any danger of frost. Give it a trial, as we thoroughly recommend it. 100 lbs.....\$10.50

WACONIA SORGHUM "Genuine Originator's Stock"—This variety has proven to be the most outstanding sorghum ever grown. Be sure to plant an adequate acreage to take care of your needs. No farm should be without Genuine Waconia Sorghum Cane. Drilled 10 to 12 lbs. per acre.

Crop Failure.

ATLAS SORGO—Gives a tremendous yield per acre in forage. The usual quantity sown per acre is 4 to 5 pounds. Southern Grown. Per 100 lbs.....\$7.00

NEW LOW PRUSSIC ACID CONTENT EARLY BLACK AMBER No. 39-30-S—Our stock is certified, or grown from certified seed. Drilled 10 to 12 pounds per acre. Certified, per 100 lbs.....\$9.50
Regular, per 100 lbs.....8.50

EARLY BLACK AMBER—The Amber is the earliest of all the fodder canes. Will stand extremely dry, hot weather. Considered excellent for feeding stock. Sow 40 to 60 pounds broadcast; 10 to 12 pounds drilled per acre.

South Dakota Grown, per 100 lbs.....\$8.50

HONEY DRIP—A very popular variety in many sections of South Dakota and Iowa, has a higher sugar content than the Amber cane. Drilled 10 to 12 pounds per acre.

Southern Grown, per 100 lbs.....\$9.00

South Dakota Grown, per 100 lbs.....8.50

ORANGE SORGHUM—One of the best canes, sweet and leafy. The stock will eat it all up, not leaving the stalk as they do some canes. Seed very scarce this season, so order early.

Southern Grown, per 100 lbs.....\$9.00

SUMAC—This is a true variety of sorghum cane for fodder. It has everything a good sorghum cane should have. Give it a trial, as we thoroughly recommend it. Drilled 10 to 12 pounds per acre.

Southern Grown, per 100 lbs.....\$9.00

COES—A combination of grain and forage crop. Will grow between 5 and 5½ feet tall, producing a heavy crop of forage and seed. Matures in about 90 days in an average season. Per 100 lbs.....\$5.50

DISCO MILLETS

HAY MILLETS

GERMAN MILLET—One of the best millets for hay, and should be cut when in full bloom. Sow 25 pounds per acre. Per 100 lbs.....\$7.50

SIBERIAN MILLET—A very fine millet. Unusually early, extremely hardy and withstands drouth. Sow 30 pounds to the acre. Per 100 lbs.....\$6.00

BILLION DOLLAR GRASS—Will grow from 6 to 9 feet tall. Stands up remarkably well and yields enormous crops. Sow 20 pounds to the acre. Per 100 lbs.....\$8.50

GRAIN MILLETS

WHITE PROSO—Grows from 18 inches to 36 inches. For hay purposes use from 30 to 40 pounds, and for seed from 8 to 12 pounds per acre. Per 100 lbs.....\$4.50

EARLY FORTUNE RED PROSO—Is the same type as White Proso except that the color of the seed is red. Sow the same amounts as Proso Millet. Per 100 lbs.....\$4.50

Dwarf Essex Rape

DWARF ESSEX RAPE—It is considered a valuable feed crop for young stock, as rape contains the necessary elements which will give them proper growth. Sow from April to August, 4 to 5 pounds per acre.

Disco, per 10 lbs., \$2.75; 25 lbs., \$6.00; 100 lbs., \$21.00

Sorghums for Grain

All our Grain Sorghums are treated with a known and recommended Seed Disinfectant which will control smut.

MIDLAND MILO—The new early combine grain sorghum formerly known as Selection 617. This sturdy, high yielding combine milo is mid-early maturing, equally as early as Early Kalo. The heads are open and seed of red color. Grows 3½ to 4 feet tall. Can be either combined or cut with binder. This new milo is resistant to common milo diseases. Midland has shown high resistance to lodging and is one of the sturdiest among combine types. The stalks are juicy and the stover is relished by stock. Be sure and try some of this new Midland as we feel it will replace most all other varieties in a very short time. Plant 4 pounds to the acre. 100 lbs.....\$8.50

COLBY MILO—A grain sorghum which has proved itself to be one of the best, not only in heavy yield but also in combating drouth, grasshoppers, and other adverse conditions which the Northwest generally speaking has encountered these past few years. Plant 3 to 4 pounds per acre.

Regular, per 100 lbs.....\$5.50

MARTIN'S COMBINE MILO—Matures much earlier than the regular Wheatland Milo, maturing within 95 days after planting in a normal growing year. It grows to a height of 3 to 4 feet, has a loose head which facilitates quick drying after maturity and after excessive rains. It will not shatter. It has a large root system, making the plant stand drought well, and also stand well for combining. After the grain is combined the stalk contains an adequate amount of leaves making excellent feed. Plant 3 to 5 pounds per acre. Regular, per 100 lbs.....\$6.00

EARLY KALO—A variety of grain sorghum which was introduced at the Ft. Hays Experiment Station, Hays, Kansas.

Regular, per 100 lbs.....\$7.00

Disco Open Pollinated SEED CORN

YELLOW DENTS

DISCO SPECIAL—South Dakota's best known variety. The best ninety-day yellow dent on the market. Has a very leafy growth and attains a height of from 7 to 8 feet. Per bushel.....\$3.75

MINNESOTA 13—Introduced by the Minnesota Agricultural College. Average ear usually 7 to 9 inches long, maturing in 90 days. Per bushel.....\$3.75

GOLDEN JEWEL—Adapted to South Dakota and Iowa, producing a compact ear, 8 to 9 inches long. Will mature in 95 to 100 days. Per bushel.....\$3.75

EARLY MURDOCK—Matures in 95 to 100 days. Stalks medium in height. Ears from 7 to 8 inches, having 16 to 20 rows. We recommend it for southern South Dakota, southern Minnesota, and northern Iowa. Per bushel\$3.75

FULTON YELLOW DENT—Ninety-day corn selected and named at Fulton, South Dakota. Used by many of our customers around Mitchell. Per bushel.....\$3.75

SILVER KING WHITE DENT—A very early White Dent corn that will mature in 90 to 95 days under normal conditions. Ears 8 to 9 inches long with 16 rows of deep grain kernels. Per bushel.....\$4.00

NORTHWESTERN RED DENT—Red in color with a white cap. Will mature in 80 to 90 days and is excellent corn for hogging off. Per bushel.....\$4.50

SEMI DENT

FALCONER—It is an exceptionally heavy yielder, ears are high enough to be easily cut with a corn binder. Stalks are leafy. Ears 12 to 14 rowed, 8 to 10 inches long. Per bushel.....\$4.50

FLINT VARIETIES

Specially suited for late planting. Show great resistance to grasshoppers.

RAINBOW FLINT CORN—Specially suited for late planting and will give a good yield. It is excellent for hogging off. Per bushel.....\$4.50

GEHU—The earliest flint corn. Matures early enough to beat the grasshoppers. Excellent for hogging off. Per bushel\$4.75

BLUE FLOUR—A soft, mealy corn, large ears, heavy yielder, early maturing, good for ensilage or hogging off. Per bushel.....\$4.50

Jacques Proven Northern Grown Hybrid Seed Corn

William H. Jacques of Prescott, Wisconsin, has been in the seed corn business since 1908, and he was one of the first to introduce Hybrid Corn. We have been distributing Jacques Proven Hybrid Corn for years.

On account of the unprecedented demand for early maturing hybrid corn we are entirely sold out on 85 Series to 105 Series in Jacques Proven Hybrid.

It may be that your Disco Dealer can take care of you as he placed his order for his requirements over two months ago. Contact him as he may have the maturity date you are looking for.

Disco Flower Seeds

Flowers are enjoyed by everyone, and no garden is complete without a fair assortment of many beautiful flowers which may, with comparatively little expense and care, be raised from seed. The following selections are all old time favorites and are easy to grow.

Explanations of abbreviations: (A)—Annuals; (B)—Biennials; (E)—Everlastings; (P)—Perennials; (V)—Vines; (AV)—Annual Vines.

2521 ANTIRRHINUM, SNAPDRAGON, Dwarf Mixed (A)—Should be in every garden. Pkt. 10c.

2531 ASTERS, Comet Mixed (Wilt Resistant) (A)—All popular shades. Pkt. 10c.

2559 BALSAM, Double Mixed (A)—Grows 2 feet tall. Pkt. 10c.

2568 CALENDULA, POT MARIGOLDS, Mixed (A)—Color from cream to orange. Pkt. 10c.

2633 BACHELOR BUTTON, Mixed (A)—Known as Ragged Sailor. Pkt. 5c.

2624 COSMOS, Giant Single Mixed (A)—Blooms from midsummer to frost. Pkt. 10c.

2577 CALLIOPSIS, Tall Mixed (A)—Fine daisy-like flowers, fine for cutting. Pkt. 5c.

2685 ESCHSCHOLTZIA, California Poppy (A)—Yellow and gold. Pkt. 5c.

2821 FOUR O'CLOCKS, Marvel of Peru (A)—Blooms in late afternoon. Pkt. 10c.

2706 GODETIA, Double Mixed (A)—A very popular annual which makes a mass of color in white and all shades of rose, crimson and pink. Pkt. 10c.

2745 GOURDS, Ornamental Mixed (AV)—Vine bears odd shaped colored fruit. Pkt. 5c.

2738 HOLLYHOCKS, Double Mixed (P)—Colors white through red. Pkt. 10c.

2777 LARKSPUR, Double Tall Rocket (A)—Wide range of color, 18 to 20 inches tall. Pkt. 10c.

2814 MARIGOLD, Double African, Mixed (A)—Blooms from July till frost. Pkt. 10c.

2620 MORNING GLORY, Tall Mixed (A-V)—Wide range of colors. Pkt. 5c.

2621 MORNING GLORY, Heavenly Blue (A-V)—Sky blue blossoms, cream throats. Pkt. 10c.

2861 NASTURTIUM, Double Hybrids, Mixed (A)—Double vivid colors. Pkt. 10c.

2856 NASTURTIUM, Dwarf Mixed (A)—Flowers yellow to crimson. Pkt. 5c.

2889 PANSY, Oregon Giants Mixed (A)—One of the best strains of pansies ever introduced. Pkt. 15c.

2894 PETUNIA, Single Bedding, Mixed (A-B)—Good selection of colors. Pkt. 10c.

PORTULACA, Moss Rose (A)—Masses of green foliage, bright colored flowers.

2916 Grandiflora—Large single. Pkt. 10c.

2917 Grandiflora—Double mixed. Pkt. 15c.

2962 SHASTA DAISY, Alaska (P)—Snow-white daisies. Pkt. 10c.

2733 STRAWFLOWERS, Mixed (E)—Everlasting, many shades. Pkt. 10c.

2220 DISCO SWEET PEAS, Spencer or Butterfly Mixture (A)—Choicest blend, many shades. Pkt. 5c; oz. 20c.

3034 ZINNIA, Disco Giant Dahlia Flowered (A)—Beautiful colors. Pkt. 10c.

3042 ZINNIA, Double Lilliput or Pompon, Mixed Colors (A)—Dwarf variety. Pkt. 10c.

3040 WILD GARDEN MIXTURE (A)—Pkt. 5c.

DAKOTA IMPROVED SEED COMPANY, Mitchell, South Dakota
